

Lecture 1.3 – Specific Learning Outcomes

- 1.2.1 – Understand the way computers execute commands.
- 3.5.1 – Learn basic skills in debugging and troubleshooting error messages.

Tips for Assignment 1.3

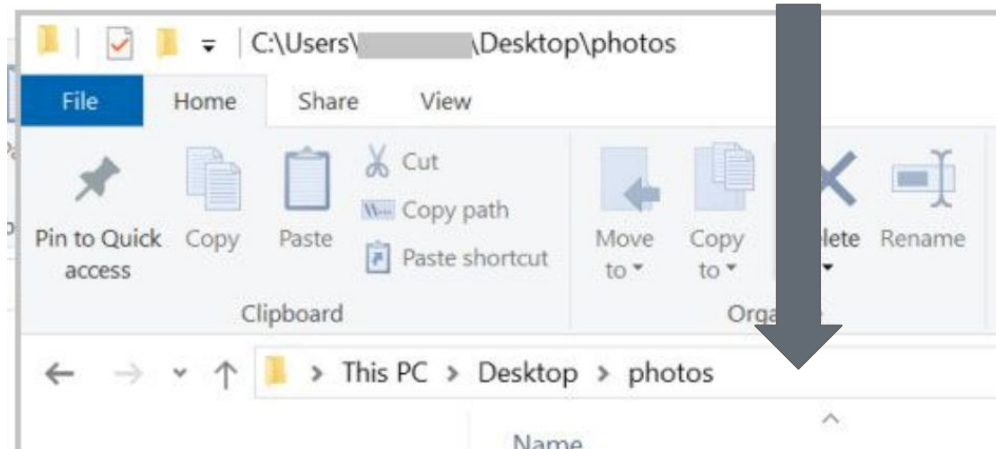

- Create a CPSC292 folder
- Do not put it in your downloads folder
- Do not name your folder with a space
 - Ex: “CPSC 292”
 - Instead: “CPSC292” or “CPSC_292”

How to find File Path on Mac

- Open Finder and navigate to desired folder
- Right click on folder
- Hold option key down
- Choose “Copy <folder-name> as Pathname”

How to find File Path on Windows

- Open File Explorer and navigate to desired folder
- Click once in this box
- Copy

Assignment 1.4

- Find a partner
- 5 minutes to read over instructions
- 15 minutes to create a task
- I'll let you know when to swap with a different group
